Professional Summary

Accomplished Business Intelligence (BI) and Data Visualization Specialist with 12+ years of experience creating compelling, interactive dashboards using **Power BI, Tableau, Oracle Analytics Cloud (OAC)**, and **OBIEE**. Expert in translating raw, complex data into powerful business insights via tailored visualizations. Skilled in full-lifecycle BI development, data modeling, and performance tuning across healthcare, government, and commercial domains.

Technical Skills

Tools	Power BI, Tableau, OBIEE, Oracle Analytics Cloud (OAC)
Databases	Oracle, SQL Server, Excel, APIs
Programming	SQL, PL/SQL, Python (ETL Scripts), Power Query
Environments	On-Premise, Cloud, Hybrid BI
Features	Drill-Through, Forecasting, KPI Cards, Maps, Filters, Prompts
Collaboration	Jira, GitHub, SharePoint, Confluence

Visualization Expertise

Power BI: KPI Indicators, Matrix/Table visuals, Conditional Formatting, DAX, Bookmarks, Slicers, Decomposition Trees, Waterfalls, ArcGIS Maps, Power Query
Tableau: Dual-Axis Charts, LOD Expressions, Geographic Maps, Heatmaps, Bubble Charts, Treemaps, Viz-in-Tooltip, Parameter Controls, Dashboard Navigation
OAC: Column Selectors, View Selectors, KPI Widgets, Forecasting, Box Plots, Graph Views, Custom Calculations, Trend Lines
OBIEE: Pivot Tables, Prompts, Funnel Charts, Master-Detail Views, Custom iBots/Agents, Interactive Dashboards, Usage Tracking

Professional Experience

Power BI Developer / SME

Code360 – CDC National Center for Health Statistics | Feb 2024 – Present

- Developed 40+ interactive dashboards visualizing national health statistics, including COVID-19 case and vaccination data.
- Designed custom DAX measures, dynamic KPIs, trend indicators, and decomposition trees.
- Integrated 20+ data sources including SQL Server, APIs, and Excel, improving report depth and accuracy.
- Automated ETL with SQL & Power Query, reducing manual processing time by 15+ hours weekly.
- Delivered self-service Power BI training to business users, boosting report adoption and accuracy by 17%.

Senior Tableau Developer / Data Specialist

Amivero – Dept. of Homeland Security (USCIS & ICE) | Nov 2021 – Jan 2024

- Built interactive Tableau dashboards for immigration application processing, backlog trends, and congressional reporting.
- Implemented advanced visualizations: dual-axis trend charts, heatmaps, symbol maps, and Viz-in-Tooltip.
- Used parameters and dynamic filters for guided navigation and user-driven insights.
- Optimized workbook performance and data extracts, connecting to Oracle, Excel, and SQL Server.

Senior BI Solutions Specialist

Deloitte Consulting LLP | Sep 2020 – May 2023

Client: U.S. Bureau of Engraving & Printing

- Created forecasting and KPI dashboards using Tableau with trend lines, variance indicators, and bar-line charts.
- Defined BI style guide for consistent visual storytelling.

Client: Exelon Constellation

- Led Tableau and Power BI conversion project across merged business units.
- Designed executive scorecards with bullet charts, performance tiles, and multi-source trend charts.

Client: Arizona Child Support Department

- Developed funnel charts, heatmaps, and dashboard narratives using Tableau to track child support case progress.

Principal BI Consultant

Alexander Mann Solutions | Mar 2019 – Aug 2020

- Delivered Tableau and Power BI dashboards for finance and HR analytics: billing, headcount, time-to-fill.
- Built KPI tiles, matrix views, variance charts, and cost analysis visuals.

BI Developer (OBIEE / OAC / Tableau)

Various Clients: Safelite, Inventory Locator Services, TSA, Cisco, Schnitzer Steel, Amazon | 2013 – 2019

- Migrated OBIEE 12c dashboards to Oracle Analytics Cloud (OAC), including custom KPIs, box plots, and graph views.
- Developed OBIEE RPD layers, usage tracking, iBots, and parameter-driven dashboards.
- Created Tableau dashboards for HR analytics: compensation, diversity, attrition, promotions.
- Applied CSS to customize OBIEE visual layout and guided navigation.

Education

B.A. – Business Studies & ICT

Havant College

Certifications

- Oracle BI Reporting Specialist
 - Tableau Desktop Specialist
 - Microsoft Power BI Data Analyst (PL-300)
-

Clearances

- DHS ICE EOD
- CDC Secret Clearance

Key Achievements

- Built 200+ dashboards across government and enterprise BI platforms.
- Reduced reporting time by >80% with automated visualizations.
- Established dashboard design standards and BI governance practices.
- Delivered high-impact visual stories to executive and policy teams.
